“ *So heartbroken to hear of Betty's passing. We have been friends since we first met on our first day of Junior High at Toaz. I couldn't ask for a better friend. We shared so many dreams and so many laughs over all these years. She will be missed by many.*

“ Part of the wonderful things about Betty knowing you was the inclusivity she made a part of her friendship. When Betty shared a moment in time with you it was a valuable insight into life and herself. These moments might be as regular as the price of potatoes that week or sharing a needlework something or other she learned to do. Her delightful humor upon a complement and question about whether she did the work on a wonderfully embroidered piece of clothing she wore that day - usually brought a response of "no" but with it a wink and a smile as she proclaimed, "I could have." Betty was a natural teacher, a healer and giver. I treasure all the time we shared. I hope to have brought as much joy to her life as she to mine. I will miss Betty for a long, long time.

“ Betty was a most kind, loving, and generous friend to all who knew her. Her talents were many and as a member of the Oneonta math girls, we enjoyed that friendship and good times together for more than 60 years. She will be greatly missed. Her future is blessed with no more pain or sorrow as she is in the heavenly hands of our maker. Our thoughts go out to her family, her sister and nieces and nephews. So sorry I cannot be with you to celebrate a life lived with honor, grace, integrity, and fortitude.

Love to you all,
Lorri Christopher

“ *I haven't seen Betty in almost 29 years, but she remains my friend in all my memories. She was such a warm, friendly wonderful person. She got me interested in so many stitching groups, and in new things to try. She and her constant companion, Pat, I referred to as 'Frick and Frack', since they were always together and so much fun. I will always remember her as the vivacious, wonderful woman she was, and my heart goes out to her family and friends. Marianne (Pletcher) Bergson.*
