“ *Charlie was the person who interviewed me for my first full-time job out of college. He was the best supervisor and mentor that a newbie could possible ever ask for. I still use some of the lessons that he taught me and it has been 10 years since that interview. As my jobs changed - I still called up to NY to check-in and ask for advice.*

Charlie - you were the best mentor ever. I'll never forget you.

Condolences to the Pace Family.
