“ David is my oldest friend. There's no comparison to his personality. He was the most generous and caring person I've ever met. I don't have a single childhood memory that he's not in. We were inseparable from kindergarten to high school till I moved. All these years we never lost touch. His family knows I spent almost as much time at his house then my own. I love him like a brother. And he'll truly be missed. You may be gone. But your memory lives on forever. R.I.P Brother

Very sorry for the loss of your son David. The loss of a child is the worse thing to ever go through. May he rest in peace and God make the family know they are not alone. So very sorry
