

## Frederick Rowe

May 4, 1935 - June 8, 2023

Fred Rowe, sadly passed away June 8, 2023. Loving husband of Doris Rowe; cherished son of deceased parents Jack and Alice Rowe; attentive father to Eric and Nelson. Fred was a loving grandfather to Tyler, and Cody. Having retired from his career appointment teaching A.P. Chemistry, Northport High School, he took further appointments after he retired online as chemistry teacher. Fred loved his students. It was the myriad of medical details from Type 2 diabetes that took the final toll. The good man was 88 years. Fred had quietly decided and arranged to live at home in hospice for all his needs by two experienced caretakers. At home for four months each care taker lovingly completed their all day jobs. Then with their personal belongings underarm (Komil and Zenovia) got into their cars and with a nod and smile drove off. We cried our loss. They understood our feelings. They appreciated our passions. We are deeply thankful. The air was sweet. The sun was rising. And that happy dog barking was not very far away.
