“ *Hilda was our neighbor for years and years. A better neighbor does not exist. Every holiday or special happening in our family (sad or happy) Hilda would send a home-made cake. A particularly kind time I remember is the day my son, Nelson, and I had moved to my Mom's. His pet rabbit died suddenly while in the car. Hilda sent my son a lovely chocolate cake. As an adolescent, that chocolate cake was the most welcoming and loving event for him. ....so like Hilda. She was always welcoming and interested in all our families. The acuity of her memory continually amazed me: birthdays, anniversaries, etc. Also, her endurance and resistance to any surrendering regarding her health situation, to this day, encourages me and models for me the graces of God in action. We were all saddened and hold dearly her and her mom, Mrs. Gregorich, in our memories. Growing up with such wonderful neighbors enriched our lives immeasurably. Mari Lou Hernandez*
