CD

“ Lester was a very influential person in my life. It was 1957, I was 13 years old and entering Andrew Jackson HS in St. Albans, Queens. After being shuttled through an accelerated Jr. HS program and being completely clueless about math, I didn't have much hope. And then along came Lester! He opened ALL the doors and windows and let the light shine in! A short review with him prepared me for HS math. I loved it, did well and the relevance of it in my life is that I can think in a logical, orderly manner- - invaluable! God bless him and grant him peace. He will not be forgotten.
