

Philip Beck, Jr.

July 30, 1960 - April 21, 2024

Philip Beck, Jr., of St. Cloud, Florida, sadly passed away April 21, 2024. Beloved husband of Karen. Loving father of Philip A. (Liza) Beck and Brian (Candace) Beck. Fond brother of Robert Beck and Edward (Brigid) Beck. Cherished uncle to many loving nieces and nephews.

Phil had a very generous heart. He was always willing to help a friend in need, even the furry ones.

He especially enjoyed fishing and being on the ocean.

Phil had a fulfilling and accomplished career. He was extremely talented and always eager for a challenge.

A rare combination of dreamer and doer, he helped bring into existence the ideas of many.

"Phil was a wonderful guy and I have great memories of what a hard worker he was, how he was always in good spirits, how much he cared about safety, and particularly how respectful he was of the cast and crew. I consider myself lucky to have had him on my team." Tom Dolby

These sentiments are echoed by a slew of creatives lucky enough to have collaborated with him over a career that spanned decades.

Phil loved what he did and those that surrounded him with love and support.

*

As he sails off towards the ever-glowing "green light" at the end of an eternal ocean, we are reminded of his favorite novel, *The Great Gatsby*;

"... there was something gorgeous about him, some heightened sensitivity to the promises of life, as if he were related to one of those intricate machines that register earthquakes ten thousand miles away... it was an extraordinary gift for hope, a romantic readiness such as I have never found in any other person and which it is not likely I shall ever find again."

*

Philip Beck Jr. was one of a kind, and he will be deeply missed.

“ Phil (and his brothers Bobby and Ed) are old friends from our high school days .. We did crazy stuff and somehow got away with it (well... most of the time, anyway).

Phil admired my homemade fireworks/explosives ...and he went on to be a special effects expert (maybe I inspired him ?)..and I went on to be a rocket scientist. (actually an aerospace engineer specializing in rockets and satellites).

We stayed in touch over the years and was glad to see his interesting and unique career develop and progress well.

I was always impressed by his energy , creativity and sense of humor!! (As were all those who knew him.)

The world will not be the same without him ---he left us way too soon!
