“ *Robert Lecat*

“ *I recently learned of Bobcat's passing and was deeply saddened. I had the privilege of working with Bob for years at Grumman on his Space Ferry design. In 2004 we re-established contact and spoke every few months; sadly I was about to telephone him when another colleague told me of Bob's departure. Bob was a gentleman and a helluva engineer. He is now cruising the final frontier, as he wished. Au revoir, mon ami!*
