“ *Tommie was my dear friend and mentor since I was seventeen and she took a chance and hired me right out of high school. I learned so much from her; about business, life, love, how to be kind and happy! Her zest for life was amazing and she loved to eat, drink and laugh! She loved all of her furry children. And watching tennis! And oh did she love her Joey. I know you're together now. Your memory will surely live on as I'll hold you in my heart always. Love, Jen and Bill*

“ *I believe that people come into our lives for a reason. Over 5 years ago Tommie's sister and my mother became roommates in a nursing home. I believe God knew we would need each other to get through the difficult times and even to find humor in the craziness. (We will never know who really ate all those cookies!) Tommie, you were a very special lady. Thank you for your friendship. I will miss you. Love, Lynne*
